3Y0Z – Bouvet Island 2018 UPDATE

The Bouvet Island DXpedition team (3Y0Z), is pleased to make an important announcement about our transportation plans to Bouvet Island.

From the beginning, we have worked with Nigel Jolly to secure safe, reliable, and affordable transportation to Bouvet. We both have struggled with the costs involved in getting Nigel's ship and a helicopter from New Zealand to the tip of South America to begin the voyage to Bouvet. Together, we have been working to find alternatives while Nigel's vessel, the Claymore II stood ready for our use if we could not find a suitable alternative. We are announcing today that we have found an alternate vessel that eliminates the repositioning costs and at the same time adds additional margins of safety for our team. <https://dx-world.net/3y0z-bouvet-2018/>

E31A and E39DI AF-038 POSTPONED

Our E3 DXpedition Team will go to Dahlak Archipelago as planned, but the stay there will be shortened due to a strong suggestion by the Eritrean Government. Hence, very unfortunately, we may not have sufficient time to operate from there this time. Instead we will do research on how we can operate next time, most probably in the fall of this year, studying the terrain, facilities available, accessibility and so on. We also hope the condition will become better in the autumn. So your understanding will be highly appreciated.

Please note E31A operation will be conducted from Asmara as scheduled."
